Alphabet or just good design? The Times rug by Gary Cruz Studios, made with GoodWeave certification, seems to show various letters of what some consider the perfect font: Times New Roman. Whether this was intended or not, the reason this rug stood out was because we watch the perfect become imperfect in a creative way - a lesson many children can afford to reflect upon while growing up. Made from 100% Tibetan wool in Nepal at 100 knots per inch, the Times rug comes in two different two-toned colors: gray/black or cream/red.
